

INTRODUCTION

This service manual has been prepared to provide necessary information concerning the maintenance and repair procedures for the QD32 engine of NISSAN FORKLIFT.

Applicable models:

- 1F1 & 1F2 models
- 1D1 & 1D2 models

Any changes effected in the series after publication of this service manual will be announced in a technical bulletin. It is, therefore, recommended that each relevant technical bulletin be inserted in front of each section and be used together with the service manual as a reference.

If a new model requires different service method or has undergone a major change, revised sections will be issued to replace the applicable sections. Each revised section will include the description of how to service the parts for the former specifications. The publication of a revised section will be announced in the technical bulletin.

This service manual consists of six sections as shown in the following table, which gives the updated symbols and publication numbers. When a revised service manual is issued, this "INTRODUCTION" sheet should be replaced with a revised one.

Section	Symbol
ENGINE GENERAL	(EG)
ENGINE TUNE-UP	(ET)
ENGINE MECHANICAL	(EM)
ENGINE LUBRICATION & COOLING SYSTEM	(LC)
ENGINE FUEL	(EF)
ENGINE ELECTRICAL	(EE)
